

GET INVOLVED AT

GMSS!

The Staff at GMSS are committed to building positive relationships and celebrating student success both in and outside of the classroom. Studies show that the more “connected” a student feels to his or her school, the more successful he or she is likely to be in the classroom. Many of GMSS’ staff members volunteer their time outside of the school day to advise student-centered clubs and programs. We promote respect for self and others, personal responsibility, positive attitudes, and the serving of others.
